

Election Integrity Update

God Bless America! God Bless our new President!

During the last two months 270 Evidence Books were printed bound and distributed to:

- 159 County Election Boards
- 5 State Election Board Officials
- Georgia GOP Leadership Positions
- Georgia Senate Ethics Comm.
- Georgia House Ethics Committee
- Georgia Republican District Attorneys
- Judge Totenberg

Each book contained over 300 pages of evidence from Lori Tullus, Kim Brooks and the Mountain Patriots. The evidence was provided to the Trump camp via the Secret Service.

In the last two months presentations were provided by Brooks, Covert, Strahl, and Tullos to 6 conservative groups in middle GA and 3 in Savannah GA, and 2 in North GA.

A Temporary Restraining Order with Permanent Restraint on the Use of Dominion Machines in Georgia was filed 1 month ago. It was filed in Federal Court in Gainesville GA and transferred to Federal Court in Fulton County where the two defendants live (SoS & Governor). Covert served the Secretary of State and Brooks served the Governor the day after it was docketed in Federal Court.

The Judge denied the immediate restraining order as it was too close to the election but has continued the suit with our first hearing in late January. The governor's legal team has addressed the Court however the SoS legal team has not, so we are working to file a Default with the court on the SoS.

Lori had also filed suit to keep Biden on the Georgia ballot. Per Ga law, the candidate registered for a federal position must formally withdraw before a replacement can be added to the ballot. For example, Robert Kennedy formally withdrew in writing from all 50 states. The GA SoS received no notice and violated GA law by placing Harris on the Ballot. Covert served this suit to the SoS but the Judge denied the case.
